June 29, 1949

Mr. Marvin Jones  
1520 Mt. Vernon Street  
Philadelphia, Pennsylvania

Dear Marvin:

A great deal of the new Congo material is already on exhibition and the hoofed stock will be released from quarantine tomorrow. There are many very fine things, most of which have not previously been seen here.

Enclosed is a copy of our employees' publication, "Zoolog." I am sure such a thing would be useful for any Zoo group.

Very interested to know that a Tarsier was born in the Philadelphia Zoological Gardens. This certainly is the first captivity record. Our animals, I believe, are both females.

Sincerely,

Lee S. Crandall  
General Curator
