Dear Marvin:

Thanks for your letter of May 4, with enclosure from Dennis Levy, returned herewith.

We had not heard of the Basel Okapi birth--very good! The Rotterdam female produced a calf on February 12. We are interested in the notes on gestation period of the Okapi. The only one in the lot that is definite is ours, of 441 days, since there was no opportunity for mating excepting as observed. Incidentally, our female has been bred--again, a definite, one-day affair.

Best regards,

Lee S. Crandall
General Curator Emeritus
