July 5, 1961

Dear Marven -

Just looked through Zool Gart (then Beobachter, of course) for 1913 & 1914, also one number of 1915 - all we have - and find no reference to *Platypus* anywhere. You know, of course, that the two references given by Reel proved unfounded.

I must try at the first opportunity to get the arrival date of Robert Bean's cardwork. Reel has no 1949. There are various dates for the Washington one - I have Feb 10, 1950. You know Columbus is supposed to have received one in 1947, still living 1958 - I have no confirmation of this. All very good, of course.

Grace Powell saw the Paris Otaxis last week. Rowel told her there have been 4 births but she could not understand from which ♀'s. Your notes clear it up - thanks. She says the 1961 calf looks fine.

As ever  
Lee
