Dear Marvin -

Thanks for your new way letter of yesterday. I don't attempt to keep track in such detail but do like to hear what's going on, as well as births & gestation periods, and longevity.

John Tee-kun means to visit George this autumn and will get a report on his nocturnal. From what George has told me he has had best results with Malayas and Pattos. I think he means Black-spotted Genets, not Black Spotted Genets!

Hope Washington can keep the Nocturns going this time - there doesn't seem to be any reason why they shouldn't.

Joe Harris was in Washington

him on the 29th it must have been
his tiven! Joe says now that he was in
