Dear Harva -

Thanks for London report and tear sheet, which I return herewith.

Yes, I heard from Clayton Trickett. As I have written him, I don't know of another record. The trouble is, of course, that someone may have bred husons, thought nothing of it and made no report - that's something we can't do anything about.

The birth of a Black Rhino at Cincinnati is completely new to me - also that this is the record. I saw mention in an article but didn't enclose it. I expect this will be reported soon or later. We know that Bill Hoff has gone to Cincinnati as General Curator but don't know whether or not this has affected Jack Hensler - Jack is still there as far as we know.

Sent you a copy of the current Guide Book which I hope you have received. The text is exactly the same as in the 1951 edition which I presume is the one you had. Boddy wants revision.

Boon

Lee
