MEMORANDUM

10/17/61

TO: Paul Harvey -

FROM:

SUBJECT:

Don't have any Lesser Panda breeding

records in addition to faurus but can

enlarge a little. London bred it in 1919, 20 and 21 -

I brought home one of the yg in 1920. San Diego

bred it for the first time in 1941, then 1942 and

in most following years up to 1954, the last.

Charles Thomas's Martial Eagle is good - we have one - but
thought he might have done better. Patel and Juppung
Hares are good too but have no idea of what a Lesser
hooded Kulture might be. Don't really bother keeping

track of Ward is any more - everybody breeds
them nowadays.

Best regards
Lee
